- A social interactive application built with Express, Handlebars, Sequelize, Ebay API, Passport.js
- Users scan beg for an item, vote for different items on Beg's List, purchase and comment on item

Recipe Search Application | https://github.com/ngl4/Recipe_App

- Built with jQuery, Firebase, Edamam Recipe API, Youtube Data and Player APIs, Materialize.css
- Users can insert up to three ingredients and certain cook time to get relevant recipes and youtube instructional videos related to the specific recipe

WORK EXPERIENCE

Legal Assistant, August 2017 - June 2018

Kao Law Firm, LLC and Law Office of Huy Nguyen, Philadelphia, PA

Assisted Attorneys with legal documentation preparation and Interpreted for clients and attorneys in Cantonese, Mandarin, and Vietnamese.

- Executed to change the billing system; established a new mailing record system and case progress record methods, to enable faster and more accurate recording results.
- Redesigned a website and brochure to be more customer-friendly and navigational
- Created an Employee Manual to expedite the training and to have it as a reference for other employees due to a lack of time that attorneys are available to train new employees
